- Light weight bumpers
- Four exclusive M colors, Jerez Black, Melbourne Red, Interlagos Blue and Silverstone

Interior

- M sport seats
- Sport steering wheel
- Variable tachometer / oil temperature gauge
- Carbon leather trim (optional)
- Console mounted Power and DSC buttons
- The M3 Coupe is a 4-seater, the Sedan seats five

Options and packages

M3 optional equipment and packages are very similar to the 3 Series models. Please note that the standard upholstery is a cloth/leather combination – leather is optional or is included in the Premium Package. An optional extended leather upholstery is available that covers the lower dash board and the glove compartment cover.

The new M3 comes standard without iDrive and without the double cowl cockpit and LCD monitor. iDrive is included with either the Technology Package (ZTP) or the Navigation system stand alone option. MDrive (2MD) is included the Technology Package and cannot be ordered separately. The optional Enhanced Premium Sound System (752) requires iDrive and can only be ordered with ZTP or 609.

Pricing will be announced at a later date.

Order Entry function and Vehicle Spec Sheets will be available on DCSnet this week. Please familiarize yourselves with the specifics of this incredible driving machine.
